

Unicast Abrasion Resistant Rubber Grinding Mill Wearparts

Unique proprietary rubber composition that delivers up to 4 times the wear life of steel for maximum cost savings. Unicast rubber grinding mill wearparts include:

Pulp Lifters

Non-Clogging Discharge Grates

Filler Bars

Shell Liners & Lifter Bars

End Liners

Throat Liners

Center Disks

Door Liners with Lifters

One Piece!

Advantages of Unicast Rubber Liners:

- 1 Longer Wearlife:** Unicast Rubber Liners are pressure molded to ensure highest density and engineered for maximum abrasion resistance. Industry recognized as delivering 1.5 - 4 times the wearlife of steel liners.
- 2 Reduced Weight Lowers Costs:** Rubber liners are 75 to 80% lighter than steel liners, increasing energy efficiency of the mill by 15%. Less stress on the mill for reduced maintenance.
- 3 Leakproof:** Rubber liners are perfectly sealed to eliminate opportunity for slurry leakage and corrosion of the shell.
- 4 Easy to Install:** Quick and easy installation of light-weight liners minimizes downtimes and improves safety.
- 5 Reduced Noise Levels:** Reduce noise levels by 8-10dB. Environment friendly for safer working conditions.
- 6 Customized to Suit:** Unicast Rubber Liners are customized to suit any application. On-site measurements and perfect-fit design engineered to improve your bottom lines.
- 7 Easy Inventory Control:** Predictable wear life of rubber liners allow for advanced ordering and deliveries providing additional cost savings. Call Unicast for more information.
